EDUCATION

- B.E. Computer Science Engineering (AI & ML) | Finolex Academy of Management and Technology, Ratnagiri *CGPA:8.4 | 2022-2026*
- XII (MSBSHSE) | RPD Jr College, Sawantwadi *69.83%| 2022*
- X (MSBSHSE – Konkan) *93.60% | 2020*
- MHT-CET (PCM) *91 percentile | 2022*

PROJECTS

- **WANDERLUST | Airbnb Clone**
  A full-stack hotel booking platform where users can list hotels, book stays, manage bookings, and provide feedback with ratings, ensuring a smooth user experience.
  Tools & Technologies Used - Node.js, Express.js, EJS, MongoDB, MySQL, HTML, CSS, Bootstrap, Render. Live Link - https://wanderlust-t9iy.onrender.com
- **ZERODHA CLONE | MERN Stack project**
  Built and deployed a full-stack stock trading platform inspired by Zerodha, allowing users to buy/sell stocks, track portfolios, and view order history through an interactive dashboard.
  Tools & Technologies Used - MongoDB, Express.js, React.js, Node.js, CSS, Bootstrap, Render, Vercel.
  Live Link - https://zerodha-frontend-kappa-dun.vercel.app
- **LOCALCART | Local Offline Delivery Platform [Medical Shop Use Case]**
  A full-stack platform designed for medical shops, enabling customers to submit medicine requirement lists via a form. Shopkeepers manually verify prescriptions, check medicine availability, finalize pricing, and confirm orders through WhatsApp before completing offline delivery, ensuring compliance with medical retail regulations.
  Tools & Techniques :- React.js, Node.js, Express.js, MongoDB, HTML, CSS, WhatsApp API, Render, Vercel. (Admin Password – admin123).
  Live Link - https://hrishi-service-frontend-dzi7.vercel.app
- **TASKORA | AI-Powered Local Task & Gig Marketplace Platform**
  A MERN-based platform that allows users to post local tasks and services while nearby workers can apply. Integrated an AI assistant that automatically chats with users to collect task details and generate structured task posts, along with AI-based content moderation to detect harmful or spam posts. Tools & Techniques :- React.js, Node.js, Express.js, MongoDB, REST APIs, AI Integration, HTML, CSS, Render, Vercel.

SKILLS

- Languages – Java , Python , JavaScript.
- Frontend Technologies – HTML , CSS , React.js , EJS , Bootstrap.
- Backend Technologies – Node.js , Express.js , MongoDB , MySQL , REST APIs.
- Other Technologies - Git/GitHub , Render , Vercel .

EXPERIENCE

- **TEACHING ASSISTANT INTERN – Data Structures & Algorithms (Java)**
  Jainemo Pvt. Ltd. (Apna College) | Remote
  Assisted students in solving coding doubts related to Data Structures and Algorithms using Java. Debugged code, explained optimal solutions, and guided students in understanding algorithmic concepts through text-based solutions.
